

Chapter 7 – Receiving Inventory from Diskette - STOREMRG

This program is for use by stores on separate computers only. This is to receive inventory **FROM** another computer via diskette.

How to use this program

After the store transferring the inventory to you has run **STORETRN** and given you the diskette, press the F10 key off of any menu and at the command line type STOREMRG. You will be prompted for the printer or file pathname. Press the ENTER key to accept the default printer or type in the proper printer number or pathname and press the ENTER key. You will see a screen similar to Figure 7-1.

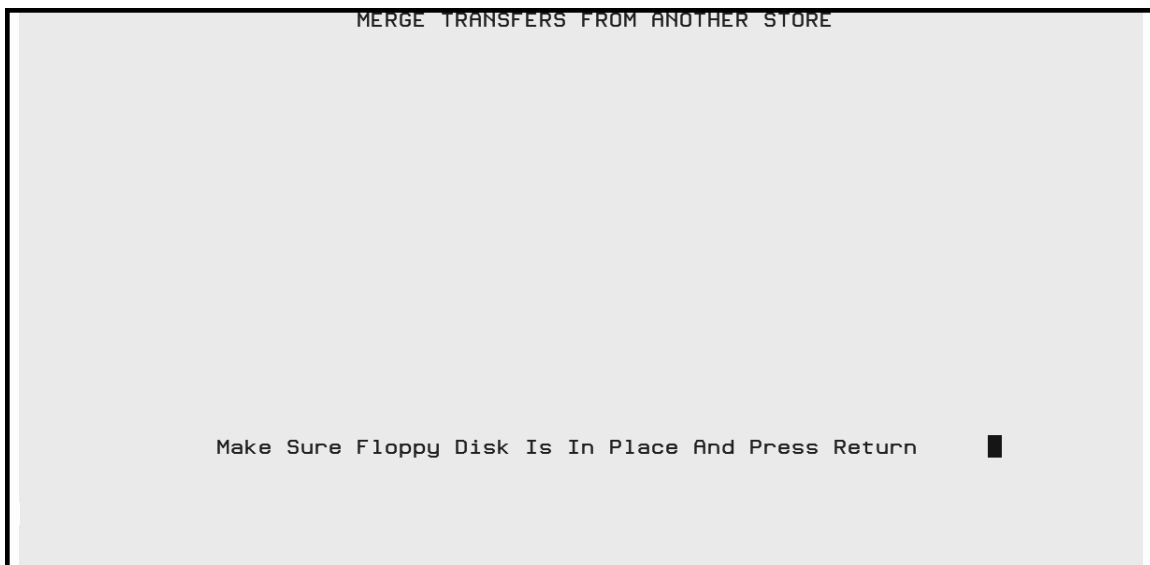

Figure 7- 1 Merge Transfers From Another Store Screen

Insert a diskette into the floppy drive and press the ENTER key. After the program has run, the inventory will be on your machine and a receipt showing the information will be printed.
