

List Location Transfers Made - LISTTRAN

Use the LISTTRAN program in RSSS to list transfers made on serialized inventory on your screen. This program only lists search results; however, this program can be used as an audit tool in tracking missing inventory. It can also be used to list inventory transfers made on a specific day.

To get into this program, select “List Location Transfers” off of the Inventory Menu or press the F10 key off of any menu and at the command line, type in LISTTRAN. See Figure 1.

The screenshot shows the LISTTRAN program interface. At the top, it says "List Transfers Made" and "07/31/07". Below this is a table header with the following columns: Date, Time, Model Number, Serial Nbr, Qty From, To, Inv, Type, and Emp. Each column has a small "0" below it. Below the header is a large empty space for the list of transfers. At the bottom, there is a section titled "Beginning Transfer Date" followed by a horizontal line. Below the line, it says "Start By: F3--Date/Time, F4--Model/Serial #".

Figure 1 List Transfers Made Screen

Listing Transfers by Date and/or Time

To list transfers by date and/or time, type in the date (you can also type in a time but it is not necessary) and press the F3—Date/Time key. If you enter the time to narrow your search, the time has to be in the format HHMMSS military time. For instance to narrow the search using time, if you enter 02/06/06 for the date and then 150000 the records will return starting with that search criteria and include all the records that met this criteria. See Figure 2 and Figure 3. You can search by time only if you choose to.

List Transfers Made										07/31/07
Date	Time	Model Number	Serial Nbr	Qty	From	To	Inv	Type	Emp	
2/06/06	150000				0	0		0	0

Listing Transfers by Model Number and/or Serial Number

You can also list transfers by model number and/or serial number. To do this type of search, press the ENTER key through the date and time fields on the LISTTRAN screen and enter the model number and/or serial number of the item you want to list. You can enter a partial model number. For the serial number, you must enter a complete serial number for the search to bring it back to your on screen listing.

Listing Transfers by Other Criteria

You can also list transfers by From (Location), To (Location), Inventory classification (Movie, Sale, Rent to Rent, Rent To Own), Type (Transfer, Pending, Demo or Delivery), and/or Employee number. To do any of these type of searches or a combination of them, press the ENTER key through the date, time, model number, serial number fields on the LISTTRAN screen and enter the search criteria you want to list items for.

For example, Figure 6 and Figure 7 reflect a search for rent to own inventory transfers done by employee 998.
